PAPER COMPANY BUYS \$288,000 WORTH OF PULP

VOLUME 62

International Paper Company spent approximately \$288,000.00 for wood purchases in Coffee County in 1958, according to Douglas Ellenburg the Company's local represent ative. This money was shared by farmers and other landown ers, woods labor, wood producers, wood dealers, and local businessmen.

In addition to the amount for pulpwood the Company's annual payroll and other expenses for the operation of th woodyard meant an added measure of prosperity to the community, Mr. Ellenburg pointed out.

He said good timber stand should be thinned periodically to keep them in top growing condition. Timber marking services by qualified foresters are available to landowners without charge from the Company, other wood - using companies and state agencies.

"Trees removed because o crowding, disease or poor form can be sold for pulpwood," said Mr. Ellenburg. "This speeds the growth of better trees left for sawtimber, poles and pilings, which may be sold for higher prices than pulpwood." International's woodyard at Elba provides a continuing market for trees harvested from local tree farms and, while independent "producers" cut most of the pulpwood, it is possible for farmers to harvest their own trees. "Anyone inter-

sister-in-law, who was recent-Attention All Parents Student Guidance: Occupational Information

-THE ELBA CLIPPER-

EDITOR'S NOTE: This is the third in a series of articles concerning the need for student guidance in American schools.

By Dr. Edward C. Roeber

In this third article of a series on vocational guidance, we are putting the spotlight on the importance of knowing something about the educational and vocational worlds which surround all of us. Because we come in daily contact with a part of these worlds, it is easy to form opinions without seeing the total picture. Or because we cannot see all the opportunities, we assume that there are none.

all the opportunities, we assume that there are none.

What is it about a job that pleases you or causes you to be unhappy about it? Your answer and that of your neighbor would probably be quite different.

One farmer says, "I like farming—it's out-of-doors and a healthy job." Another disagrees. "Farming's OK, but the outside work is the worst part of it—and it's unhealthy, too."

Students also show different reactions to school and work. It is important that sound career planning does not overlook this.

reactions to school and work. It is important that sound career planning does not overlook this fact. Students need reliable information about schools and jobs. They also need a chance to talk over how they feel about schools and jobs in relationship to their own growing interests, talents, and personality.

their talents cannot be stressed too much. They should be encouraged to start a collection of helpful occupational information when they enter high school. This practice should be continued until graduation.

A typical counselor's day demands considerable knowledge, as well as resources of information.

talents, and personality.

For many years, I have had ton, if he is to satisfy all in-

A Tree of Progress GROWS IN ELBA!

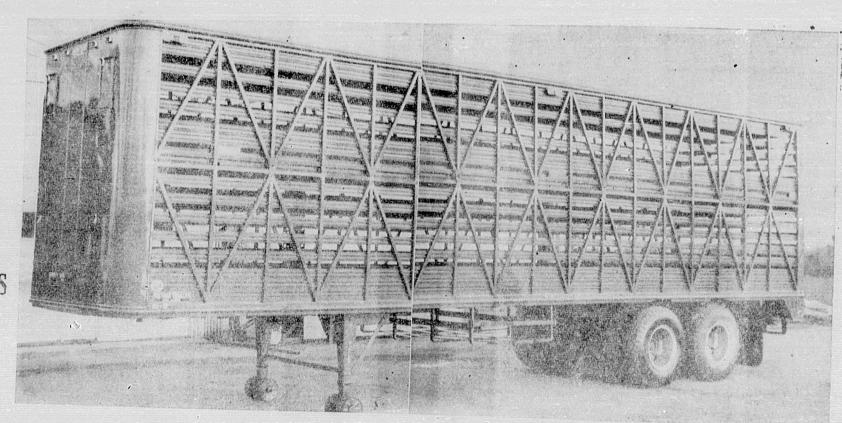

WHITMAN TRAILERS

Takes Its Place as Booming New Industry!

Elba Plant Already Manufactures

VANS - PLATFORMS - CATTLE VANS STAKE BODIES - SHORT VANS!

The first half of 1959 in Elba has seen a new factory organized, built and turning out trailers with a new name.

It had its beginning when Basil Whitman Motors, moved from a long-time downtown location to larger quarters on Opp highway, inside city limits, just one year ago. By November, plans were under way to build a trailer factory on the same lot. Basil Whitman Trailers, Inc., was organized.

Construction began in January, this year: first one building, then another. An assembly line was organized and soon the first trailer rolled out to the highway. More men were hired and trailers built at a faster pace. Now Whitman Trailers, Inc., employes 22 men and produces three trailers or vans a week. Expansion is under way. Plans are to employ more, to produce faster!

Officers of Whitman Trailers, Inc., are: Basil Whitman, president' Laymond Hill, first vice president; James H. Harper, second vice president' Mrs. Mary Whitman, secretary - treasurer. With Mrs. Dorothy H. Hill, They constitute the board of directors.

Following is an exact copy of an unsolicited letter from the Elba Chamber of Commerce!

Dear Basil:

As Chairman of the Resolutions Committee for the Elba Chamber of Commerce, I would like to take this opportunity to thank you for the faith you have shown in the future of Elba by building and expanding your business in this area.

Too often, Chambers of Commerce and other civic organizations spend too much of their time and energy in trying to woo outside industry into their communities. All too often, they do not stop to consider and appreciate the industries, which have grown up right in their own back yard.

I want to assure you for the entire membership of the Elba Chamber of Commerce, that we do appreciate your business and the effect that it has on the economy of Elba and the surrounding territory. I also want to extend to you the assurance that we will co-operate with you in every way possible to build a better community. Yours very truly, I. S. Rainer, Jr.

101 STUDENTS AT TROY FROM THIS COUNTY

TROY - Summer School enrollment at the end of the first week at Troy State College has reached 1,086, said Assist. Registrar Jeff McClain, with 101 from Coffee county.

The total included 312 seniors, 236 juniors, 228 sophomores, 152 freshmen, 115 graduate students, and 43 special students who are taking courses without reference to degrees. Troy State summer school students come from 34 counties in Alabama, also from Florida, Georgia, Wisconsin, Caracas, and Iran.

Among counties with larger

enrollment figures are Pike.
